ENVIRONMENTAL SPECIALIST III

Opening Date:	November 12, 2014	Closing Date:	December 03, 2014
Location:	Bangor	Position #:	08330-1414
Position Type:	Permanent Full Time	Class Code:	9253-DWQM
Grade/Salary:	23	\$36,566.40 - \$49,504.00	

The Maine Department of Environmental Protection is seeking candidates for an Environmental Specialist III with the Division of Water Quality Management (DWQM), Compliance and Technical Assistance Unit in Bangor.

BRIEF JOB DESCRIPTION: This position is a compliance inspector for the Maine Pollutant Discharge Elimination System and Waste Discharge Licensing Program (MEPDDES/WDL). The position inspects licensed municipal, commercial, and industrial wastewater treatment facilities. This position is responsible for monthly review of compliance data, identifying and documenting non-compliance events for Department review and action, reviewing draft wastewater permits, investigating and resolving complaints, performing water quality sampling in the field, taking the lead for uploading data, creating reports and maintaining the EGAD database with regards to groundwater and aquaculture data, participating in educational outreach activities including technical presentations, project review for facility upgrades, and development of program guidance and policy as necessary. The position interacts closely with licensing, enforcement, technical assistance and engineering staff in the DWQM and water quality engineers in the Division of Environmental Assessment. The position also interacts closely with the regulated community and other interested parties. For job specifics, please contact Clarissa Trasko at (207) 941-4572.

Preference will be given to candidates with the following:

- Wastewater Operator Certification
- Experience/knowledge of design and operation of municipal and industrial waste water treatment facilities.
- Experience and expertise with a variety of software programs and computer databases.
- Knowledge of laws, rules, and regulations applicable to the area of specialization.
- Knowledge of water pollution issues and science.
- Ability to understand and follow oral and written instructions and manage multiple projects.
- Ability to perform duties with limited oversight.
- Ability to communicate effectively orally and in writing.
- Ability to function effectively as part of team.

MINIMUM QUALIFICATIONS: A six (6) year combination of education and/or experience in environmental, biological, physical science, or engineering which includes two (2) years of environmental experience. Qualifying education must include at least 15 credit hours of science or engineering coursework from an accredited educational institution.

When filling out your application make sure to fill in the full Class Code (9253-DWQM) so we know the position for which you are applying.
